Henderson Directories Limited

Drinkle Block, Saskatoon, Sask., and 279 Garry St., Winnipeg, Man.

Entered according to Act of Parliament of Canada, in the year One Thousand Nine Hundred and Thirteen, by Henderson Directories Limited, in the Office of the Minister of Agriculture.

Preface

The sixth annual edition of the Saskatoon City Directory is herewith presented with the assurance that it is as thoroughly up-to-date as time and a systematized method can make it.

The City Directory is of great importance to the community for it clearly portrays the city, its people and institutions, growth and progress as no other work can. Every resident is interested and represented in it, and it is a matter of vital importance that they be correctly entered in the record. It furnishes exact data for the city's measure of prosperity, which is unerringly shown by the great increase in population, businesses and professions as indicated in the pages of this book.

The work of enumerating, tabulating, checking and compiling the data herein contained has all been done by a trained and competent force.

Special attention is directed to the Miscellaneous Section, complete with figures and statistics concerning the growth, development and industrial activities of the community.

The publishers wish to thank the business fraternity for their liberal support of the advertising pages and the public generally for their courtesy and interest in supplying the information which made the work possible.

HENDERSON DIRECTORIES, LIMITED.

August, 1913.

Educational—School, Colleges, Universities, Churches.

Part III.—Pages 123 to 129

Board of Trade, Associations, Blocks and Halls, Political and Press Organizations, Clubs, Societies, Cemeteries, Etc.

Part IV.—Pages 130 to 134

Provincial Government Departments and Officials.

Part V.—Pages 135 to 140

Dominion Government Departments and Officials, Military, Royal North-West Mounted Police.

City of Saskatoon

PART I.

That the Canadian West is now sweeping toward a mighty and inevitable destiny as the greatest section of the British Empire is granted by the ablest statesmen and economists of the age.

Now, place your finger on the centre of any map of Western Canada, just where all the railways meet. Study Saskatoon's strategic geographical location, and you will surely concede that Western development must of necessity involve Saskatoon development, just as the growth of the human body involves the growth of the heart.

A Wondrous Unfolding

Saskatoon, December, 1903:—A few rude shacks on a raw prairie, and 113 hopeful souls. Children born then are now attending our junior schools. Now, in this stately and beautiful city of about 30,000 exceedingly prosperous people, a city of such outstanding commercial importance that her bank clearings for the year 1912 amounted to no less than $115,898,477, an average increase over 1911 of just one million dollars per week.

It seems but yesterday since the wild pea vine and the delicate prairie anemone flourished in extravagant luxuriance where mile upon mile of cement street and sidewalk now streak hither and thither by beautiful homes and imposing business blocks; along streets with their splendid stores and bustling throngs of busy, happy-looking people—streets where but yesterday the cheeky little gopher peered from the grass at the passing bullock wagon of the pioneer as it jolted along toward that gray ribbon of a prairie trail that led—God knew where—some said to Battleford.

No noise had then been born upon these plains. The silence and the hush dwelt there as virgin as the land. But, the finger of solitude touched men's hearts—drew them together and bound them in a bond of brotherhood which in these easier and more affluent days still holds the citizens of Saskatoon in unwavering unity. That, at least, will never change. Our people have tested and proven its potent magic. All else has changed. To-day, thirteen miles of electric street railway replace the uncouth trails of yesterday, and all lingering traces of a town have been lost forever in the throbbing heart of a truly modern city.

Natural Charm

Saskatoon's natural charm is of a type quite unexpected in the West. To the stranger it comes as a very delightful surprise. The splendid South Saskatchewan river which wends its way through the very heart of the city, is, in itself, a thing of beauty and a joy forever. Its banks are beautifully wooded. The whole lay-out of the city lends itself peculiarly to the picturesque.

Educational

With her central location, remarkable railway facilities and natural attractiveness, it was not remarkable that Saskatoon should have been selected in April, 1909, as the seat of the University of Saskatchewan with its Agricultural College and College Farm, which institutions absorb an area of 1,333 acres, and are planned for the eventual accommodation of about five thousand students. During the past two years, over $1,250,000 have been expended upon buildings, notwithstanding which, the accommodation is already somewhat overtaxed

Emmanuel College

Located adjacent to the University, two fine new buildings—costing about $100,000—and a cluster of smaller ones, constitute the nucleus of Emmanuel College—the first Anglican Theological College in Saskatchewan.

Presbyterian College

This college also has its site on the University campus. Building operations have already commenced. From $80,000 to $100,000 will be expended this season.

Provincial Normal School

This Provincial institution for the training of first, second and third class and high school teachers, commenced here in August, 1912. Over one hundred students now attend. Courses are, meantime, conducted in the Collegiate Institute, but it is expected that a large and highly modern Normal School building will be arranged for this season.

Schools

Saskatoon possesses seven splendid large schools, which, in May, 1913, were attended by 3,397 scholars. Three of these schools cost no less than $155,000 each, and a fourth cost $118,000. Other two are now building at an expense of $155,000 and $100,000 respectively. In addition to these, there is the Collegiate Institute—one of the most imposing in the Dominion.

Churches

All the leading denominations are represented in Saskatoon, there being no fewer than seventeen places of worship. Other seven fine churches are now under construction at a total cost of about $844,000.

Hospitals

Saskatoon had the first municipally owned and operated hospital in Western Canada. The present fifty-five bed building having become quite inadequate to the requirements of the city and surrounding country, arrangements have been completed for the immediate erection of a new $500,000 institution.

In addition to the above, there is St Paul's Hospital, conducted by the Grey Nuns—a highly equipped establishment which has done splendid work.

Railway Facilities

The strategic, central location of the city has not been overlooked by the three great railway companies, which have for some years past made her the centre of remarkable railway construction. The Canadian Pacific, Canadian Northern and Grand Trunk Pacific are all in evidence. Each company has its own steel and concrete bridge spanning the South Saskatchewan River at Saskatoon. Altogether there are four bridges at Saskatoon, while a fifth has now been arranged for.

To realize the exceptional character of Saskatoon's railway facilities, it is merely necessary to consult any reliable map of Western Canada.

Mail Service

Ten different operating railway outlets radiate from Saskatoon. Over these, thirty passenger trains daily arrive and depart at her three railway stations, while twenty-seven mails are each day received and distributed at her post office.

Wholesale Distributing Territory

A feature which greatly enhances Saskatoon's unique geographical location is that she is far removed from any other large point. Consequently the surrounding territory is undisputedly hers, and she has the railway facilities and distributing freight rates to control it absolutely. In area, this territory extends to over 48,000 square miles, and embraces more than two hundred thriving points on no fewer than 1,800 miles of operating railways.

Naturally, the possession of an exclusive territory so vast, fertile and well settled involves an enormous business, and it is not surprising that for some time past, Saskatoon's has been the second largest wholesale distributing business in the three prairie provinces and exceeded by Winnipeg alone.

Industries and Power

Saskatoon's is the cheapest steam generated electric power in Western Canada.

Already, the city's industrial life is well awakened and developing most encouragingly, and it is already beyond question that anything which may be successfully manufactured in the West, may be manufactured to advantage in Saskatoon. In this connection, it is well to remember that Winnipeg is now the fourth largest industrial city in the Dominion.

At present, Saskatoon possesses quite a number of important industries, among which is the sole Western plant of the Quaker Oats Company, of Chicago—while, within the past six months, several others have arranged to locate.

Industrial League

Within four and a half days, the citizens of Saskatoon subscribed the sum of one million dollars ($1,000,000) toward their industrial league, organized for the encouragement of suitable manufacturing concerns, to which end the city is also prepared to grant generous concessions. The efforts of the league have been most satisfactory, having resulted in the securing of several important industries within the past six months.

Municipal Ownership

The City of Saskatoon owns and operates all her utilities, including Light, Power and Street Car System. An initial thirteen miles of the latter commenced operating on 1st January, 1913, and almost from the outset has yielded a profit. Under the thoughtful management of a faithful and energetic city council, it has not been difficult for Saskatoon to demonstrate the advantages of Municipal Ownership.

Waters, Sewers and Sidewalks

Saskatoon enjoys an unlimited supply of splendid water for all purposes, for which reason her fire insurance rate is the lowest in all Saskatchewan. Over thirty-three miles of mains are already in use, to which many miles more will be added this season. The City's Sewerage System is of the most modern and approved character, over thirty-two miles being now laid. Upwards of fifty miles of cement sidewalks streak in every direction, and the laying of further extensions is now in full swing. Three and a half miles of street paving has also been done, to which the completion of this season's large programme will materially add.

Newspapers

Another convincing indication of Saskatoon's progressive prosperity is the number and remarkable quality of her newspapers, viz.:—

The Daily Phoenix	The Saskatoon Daily Star
The Weekly Phoenix	The Saskatoon Weekly Star
The Evening News	The Saturday Press

Agriculture

Needless to say, the phenomenal progress and prosperity above indicated largely resolves itself into a matter of exceptional soil fertility throughout a very extensive tributary territory. There are no better lands than those of Saskatoon's district, and there is no branch of farming that may not be most successfully conducted thereon. Apart entirely from the production of the famous hard wheat and magnificent oats, barley and flax, all manner of field crops—including roots, tame grasses and all the valuable legumes, such as alfalfa, etc., thrive splendidly and yield large returns. Cattle, horses, sheep, swine and poultry are all earning big returns for the farmer, in consequence of which the popularity of mixed farming has recently shown an encouraging increase.

Public Spirit

There is another potent factor toward the solid and truly extraordinary development of Saskatoon, and it is evident always and on every hand—even with the humblest citizen. The best interests of the city is the one dominating ideal to which all questions of personal interest are subserved as a mere matter of course, and without effort or regret. Sustained by this lofty conception of citizenship, Saskatoon passed safely and sturdily through the vicissitudes of infancy and in a few short years came to be generally termed "The Western Wonder City."

Building Statistics

1907	1908	1909	1910	1911	1912
$377,211	$115,625	$1,002,055	$2,817,771	$5,028,366	$7,640,530

UNIVERSITY OF SASKATCHEWAN

Nutana

The University is situated on the east side of the south branch of the Saskatchewan river. Its site comprises 1333 acres. About 300 acres, with frontage of over half a mile on the river, have been set apart for a campus. A portion of the quarter section south of the campus is devoted to plot work, the land being virgin prairie.

Town of Sutherland

Incorporated June 1st, 1912

An incorporated town situated about three miles east of Saskatoon. It is located on Section 35, Tp. 36, Rge. 5 west of the 3rd Mer. and is a divisional point on the Lanigan section of the C. P. R. A large roundhouse and extensive yards are here.
Mayor—John Baker
Council—L. Williams, W. G. Clarke, J. Bradwell, S. E. D. Ough, J. Green and W. J. Wilson
Secretary-Treasurer—Sidney Appleby
Medical Health Officer—A. E. Ross, M.D.
Fire Chief and Chief of Police—N. Manson.
Solicitors—Macintosh & Gilchrist.
Post Master—W. Badger

System of Street Names and Numbering

Streets run east and west

Avenues run north and south

The townsite has been laid out allowing 18 streets in Nutana, south of the Saskatchewan River, Eighth to Eighteenth Streets being within the Corporation limits, while First Street to Seventh Street lie south of the southern city limits. First Street to Eighteenth Street are in Nutana, Nineteenth Street being the first street on the west side of the River. East of the C. N. R. tracks and west of the river streets are numbered from Nineteenth to Twenty-sixth, west of the C. N. R. tracks in Riverdale streets number north from Eleventh to Thirty-third, the northern city limits.

With the Avenues the C. N. R. tracks are the dividing line. Avenues First, Second, Third, Fourth and Fifth running north and south and paralleling the C. N. R. tracks to the east are arranged numerically from the C. N. R. to the Saskatchewan River. West of the C. N. R. avenues are arranged alphabetically from Avenue A to Avenue P, the western city limits.

In Nutana the street information is taken east from the Saskatchewan River to eastern city limits. On the Avenues north from 8th Street the southern city limits. The system of house numbering adopted by various cities throughout the continent known as the Decimal or Philadelphia system, viz., an even hundred numbers are allotted to each block, the principal advantage of the system is that the number indicates how many blocks distant it is from any given point on a street or avenue.

On the Avenues, which run north and south, a number is allotted for every 12 feet and on streets running east and west, a number is allotted for every 15 feet.

Odd numbers on the east and north sides. Even numbers on the west and south sides.
